**OSYRIS MEDICAL U.S.A. TO DEBUT AT 67th AMERICAN ACADEMY OF
DERMATOLOGY ANNUAL MEETING**

- Company will display pioneering medical aesthetics equipment at Moscone Center in San Francisco, March 7-9 -

DALLAS, TEXAS, March 1, 2009 - Among all the latest research studies, treatments and skincare products that will be at the American Academy of Dermatology's 67th annual meeting at San Francisco's Moscone Center is a company that is well-established and highly-regarded in the medical aesthetics industry.

Osyris is a leading French manufacturer and marketer of precision laser equipment for medical and industrial applications. Last year, Osyris acquired a minority ownership position in MedSurge Advances of Dallas, Texas, a company with a strong background in the medical aesthetics field.

Osyris announced it acquired a majority interest in MedSurge Advances and the formation of Osyris Medical U.S.A. earlier this week. The announcement was made by Pr. Jaouad Zemmouri, president and CEO of Osyris Medical and Jack Savage, CEO of Osyris Medical U.S.A.

According to Pr. Zemmouri, "We are delighted to have such a knowledgeable and experienced team already in place at Osyris Medical U.S.A. This is very exciting because it further strengthens the Osyris presence and reinforces our commitment to the medical aesthetics field in America."

Mr. Savage agreed. "Our unified organization offers physicians the finest advanced precision laser-assisted lipoplasty equipment in the world," he said. "Osyris is ahead of the curve in innovation through new product development that is poised to revolutionize

laser-assisted lipolysis for physicians and their patients. We are very proud to be part of the Osyris team.”

-More-

OSYRIS MEDICAL U.S.A. 2-2-2

The new U.S. arm of the company’s Osyris Medical division, a leader in laser equipment in Europe, will be the marketing and technical support organization for the company’s continuous wave diode laser Lipotherme,™ a 980 nm continuous wave diode laser that can be adjusted from 1 watt to 25 watts of power.

Other new and innovative equipment will be on display at the Osyris booth (# 2036), including LipoControl, a breakthrough Electronic Mapping device for laser-assisted lipolysis that provides safer treatments and optimizes outcomes.

Osyris Medical U.S.A. also distributes Quantel laser products, namely the ProLite III a latest generation pulsed lamp system , the LEDA ,the fastest Diode Laser on the market , and the EXELO₂ ,a second generation 10600 nm CO₂, fractional laser system at an affordable price. The Quantel Group is one of the world's leading specialists for scientific, industrial, and medical laser technologies.

Some AAD events worth noting are the Osyris Medical U.S.A. Media Breakfast hosted by Trent & Company PR Firm, the Osyris Medical U.S.A. Physician’s Cocktail Hour, and Lipotherme and Lipocontrol will be featured in several presentations on Laser Lipolysis.
